## • A SHARED FUTURE

## CONGRATULATIONS MOSES ASIIMWE OF RWANDA

# COMPETE COLLABORATE AND CO-CREATE A SHARED FUTURE

INDIAFRICA: A Shared Future is a unique approach to foster a People-to-People (P2P) understanding with Africa by inviting creative exchanges between young Africans and Indians through a multidisciplinary contest series and a Young Visionaries fellowship program. This initiative aims to create a dynamic platform for students and professionals across India and Africa to collaborate through competition, innovation and entrepreneurship. The contest series, in the areas of Business Plans, Essay Writing, Photography and Poster Design, will help create a platform for talented young Indians and Africans to exchange ideas about emergent realities, successes and challenges, and explore future collaborations in business, design and culture. The Young Visionaries fellowship programme, seeks to identify promising

young entrepreneurs in India & Africa and offer them opportunities for growth and collaboration. INDIAFRICA aims to forge meaningful bonds between youth from both geographies; inspire new possibilities of collaboration and encourage recognition of diverse nations as interdependent creative problem solvers with unique and invaluable resources and talents.

## INDIAFRICA BUSINESS VENTURE COMPETITION 2011-12 WINNER FROM RWANDA

### MOSES ASIMWE

School of Finance and Banking (SFB)  
Kigali

Moses Asimwe is a 23 year old pursuing his graduation in Bachelor of Business Administration (BBA) at the School of Finance and Banking (SFB), Kigali-Rwanda. He can speak English and Kinyarwanda fluently and is well versed with French. His hobbies are reading and traveling and he also enjoys spending time with people. According to him nothing is impossible and his objective in life is to be honest, innovative, fair and hard working.

### MOSES' Winning Business Venture

Kigali Recycling Ltd is a start-up limited liability company which will be located at Nyabugogo, Kigali-Rwanda. It will be collecting, recycling/composting, and marketing waste from city waste processing plants for use as a consumer good. This recycled product will meet two critical needs; It will give the city a feasible and cost effective alternative to land filling the waste, and it will help meet the growing demand for organic soil enhancers and fertilizers. The material that will be recycled is human waste sludge. The company will offer a service to waste processing plants owned by towns and municipalities. Landfills are filling up and costs of disposal are rising. Kigali Recycling will solve

this problem by accepting this waste at a nominal charge and recycling it into a useful product. One of the most attractive aspects is that the business is projected to attain a strong cash position and achieve profitability in the first year of operation. Due to a large need for these products and services, and a lack of direct competition, our projection of quick profitability is attainable. Their vision is to offer a service that is a cost effective, a valuable soil amendment that improves many soil properties, plants and crops treated properly with compost may produce higher yields and have less weed growth, and reducing the risk of diseases such as malaria and cholera in the Rwandan society.

**Moses is a Top 25 winner from Africa and wins USD 250 as prize money. His venture is being put up for assessment for possible investment and mentorship by Angel investors.**
